## **Attitudes Toward School and Achievement Survey**

Donna Y. Ford-Harris, Ph.D.

### Purpose:

This questionnaire will help school personnel understand how you and other students feel about school and the things that happen in school. It contains several sections that ask how you feel about:

(a) school, (b) school subjects, (c) taking tests, and (d) friends and classmates. You will also be asked questions about yourself, your teachers, and your family.

### Directions:

Read each question carefully. Then mark one answer that is closest to what you think and how you feel. Remember—this is not a test. There are no right or wrong answers. It is important to tell what you really think and how you feel. For most of the sections, you will indicate whether you strongly agree, agree, disagree, or strongly disagree:

**SD means “strongly disagree”**

**D means “disagree”**

**A means “agree”**

**SA means “strongly agree”**

### Confidentiality:

Your answers to these questions will be kept confidential. You will not be identified and your individual answers will not be shared with anyone.

*Your participation in this study is appreciated.*

Note. Some of the statements use the term “Black,” others use “African-American.”
